Callout Guide

Every callout on the map, the full utility for a B hit out of Apartments, and the habits that win the site.

1 • THE PLAY

Hitting B out of Apartments: the full utility

1. **As you come out**, five spots can see you.
2. **Smoke Short, Market Window and Arches.** Three angles gone.
3. **Molly Bench**, so nobody holds the close corner.
4. **Pop a flash over the exit**, and come out together.

Clear Van first. Then the site is yours.

Four habits that win B site

No lineups to memorise. These work every round.

1 Don't run out alone. Apartments has one exit and five angles on it. Come out with a teammate one step behind.

2 Smoke before you peek. Short and Market Window go first. Then the fight is close range, on your terms.

3 Clear the close corners. Van and Bench are where defenders hide. Check them before you look deep.

4 Plant, then play off the bomb. Hold from cover so whoever goes for the defuse walks into your crossfire.

Know the calls. Now check your rounds.

Upload a round at callup.gg and get it reviewed.
